

You're invited to The Autodesk Experience Tour

Discover the immediate impact **Autodesk® 2010** software will have on the architecture industry – and your business.

Experience your designs before they're real: walk through buildings, open doors, and simulate real-world scenarios within an integrated 3D building information model with **Revit® Architecture 2010**. Also find out more about **what's New with AutoCAD 2010**.

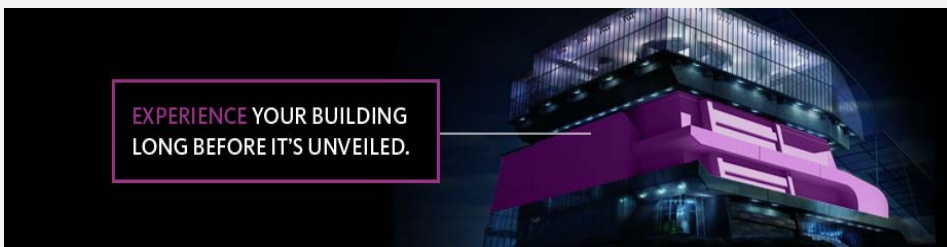

At this information-packed event, you'll learn how to:

- Create more accurate, reliable designs
- Communicate more effectively between consultants and clients
- Improve coordination and collaboration to better manage complex designs
- Generate photorealistic renders of your designs

The Autodesk Experience Tour Agenda

0600 PM	Introduction
0610 PM	Enhancements of AutoCAD 2010
0640 PM	BIM using Revit Architecture/Structure & MEP
0745 PM	Coffee Break
0800 PM	3ds Max Design- New Features & Coordination with Revit
0830 PM	Benefits of Subscription
0845 PM	Q & A
0900 PM	Dinner

Get a first look at the new features and functionality of Autodesk's architectural and design solutions-, Revit® Architecture 2010. This session will demonstrate how Revit Architecture, our premiere solution for **building information modeling (BIM)**, keeps design and documentation coordinated, consistent and complete .

Who Should Attend?

- Architects
- Architectural Designers
- CAD Managers
- IT Managers
- Project Managers

Venue:

Date:

Crown Plaza, Abu Dhabi

17th June 2009

Emirates C, Hall
